The voters requiring an EIC may have limited transportation available. I think the location should be where there are at least public transportation routes. I believe that is part of the problem with the DPS offices are so far removed from those types of transportation.

Perhaps the new Nederland City Hall at 207 N 12th Street, Nederland, TX . We are going to be using it instead of Highland Park Elementary for future elections, but did not have time to change prior to the Primary.

Laura,

The Director at the Library is out until 1pm today, I cannot confirm the change until then. This has been publicized and it is unfortunate that I was not informed about the 5 day advance survey of a public building.

Carolyn

We were closed Monday for the holiday. DPS requires 5 business days to come out and survey the location so these dates will not work.

Today the earliest day would be Feb 26. Would you like to plan for the sites below for Feb 26 & 27?

Thanks

Louri

Ken:

Please remove the EIC mobile station notice from the website. Our state government (SOS and DPS) have a problem with those dates.

Sherri:

Thank you for your email. We will continue our training efforts concerning the photo identification requirement. Ms. Guidry went to considerable expense procuring the large white stand up boards with all of the acceptable photo ID's. Also we gave each poll worker a copy of the slide presentation from the banquet training in which the acceptable photo identifications were discussed.

I think you are correct that sometimes a poll worker falls back on what the rules were in prior elections, and fails to recall any recent changes. This is particularly an issue with our more seasoned poll workers.

We will also continue our training efforts concerning assisting voters when pulling up a ballot. If the voter does not ask for help in how to use the machine, none should be given. We have been utilizing this electronic equipment since 2006.

Thanks again for your comments, and for volunteering to assist with the election process!

Theresa:

I just wanted to share with you a few things that voters brought to my attention yesterday that concerned me. I was at the Port Arthur Library.

I had multiple people who told me this happened at early voting at the Port Arthur Library. An elderly gentleman came to vote early and brought his wife on Election Day. He stood with his wife as she checked in. He then pulled me aside and told me that he was never asked for ID because he had his voter registration card. He questioned it, but they never

took his ID. He heard me explain to another person in line that an ID was now required to vote and what was acceptable forms. This concerned him.

A young woman voted early at the same location and brought her elderly mother on Election Day. Her mother did not have ID with her. I asked if she had a valid drivers license, which she did so her daughter went home to get it. She didn't complain about having to get the ID for her mother, but she did tell me that she was not required to show ID. I explained the legislation and showed she the board. She was concerned about the lack of training for election workers not knowing the rules/laws. She witnessed an individual going through the line in front of her without a card or ID. The election worker "knew her" from church so it was "okay" and she was active in the system.

The County Clerks Office does an amazing job getting everything together and pulling off elections. I commend each and every one of you. The problem lies with the worker who has been doing elections for years and think they know everything and know best because they have been doing it so long and "know everyone". Rules are rules and have been in place for reasons. That is what makes things fair and unbiased no matter what party you are affiliated. We have a standard to uphold as election workers.

As a first time judge for this primary, I learned a lot if valuable things. I did have to have a talk with one worker giving what I though was too much help to their own parties voters, by showing them how to scroll through the pages and "making sure that they read the propositions very carefully because of the wording" while not even completing the process of pulling up the ballot for the other parties voters. I didn't let her know that I knew of the bias, I just explained that she was taking too much time explaining. If they were not a first time voter, they should know how to work the machine. I concluded telling her that she is a wonderful and friendly person and asked her if she would be a door greeter and make sure everyone knew they needed ID. She had a good time with that.

I apologize for the long narrative, but felt it important to bring the early voting problem to your attention.

Once again, thank you for all you do.
